

Expédition au Pôle Nord

La situation

Dans le cadre de recherches, vous aviez prévu de vous rendre au Pôle Nord. Cependant à la suite d'un imprévu, vous avez dû effectuer un atterrissage forcé, et vous êtes vraisemblablement perdu. Vous avez eu le temps d'envoyer un appel de détresse mais vous ne savez pas quand les secours vont arriver. Vous disposez d'une quatorzaine d'objets, en plus de vos vêtements respectifs.

Vous devez classer tous les objets du plus important au moins important.

La solution

1 - Parachute

Il peut servir d'abri et de protection contre le froid et le vent polaire.

2 – Couverture

Elle sert à tenir chaud et éviter que le corps soit en hypothermie (en dessous de 35°C, une personne est en hypothermie).

3 - Allumettes

Elles sont très utiles pour faire du feu et se réchauffer.

4 – Journal

Il peut servir à allumer un feu (et on peut aussi le lire !).

5 – Chocolat

Il est important pour maintenir l'énergie du corps car c'est un aliment riche en sucre et en magnésium.

6 – Boîte de biscuits

Les biscuits sont utiles pour ne pas perdre de force. Or l'attente peut être longue. En outre, cette boîte, une fois vide, peut aussi servir de contenant.

7 – Boîte de conserve

Elle fournit une denrée consommable et une fois vide, la boîte peut contenir de la neige à faire fondre pour avoir de l'eau.

8 – Couteau de poche

Il est important pour chasser, faire des trous pour aller pêcher et faire de la découpe.

9 – Raquettes de tennis

Elles peuvent être utilisées comme raquettes de marche. En effet la raquette augmente la surface du pied, ce qui fait que l'on s'enfonce moins dans la neige et que l'on s'épuise moins vite.

10 – Trousse de premiers secours

C'est essentiel si des personnes se blessent.

11 – Sac à dos

Il est très pratique pour se déplacer afin de transporter des objets ou bien le fruit de la chasse.

12 – Balle

Elle est utile pour bouger et garder une bonne forme physique.

13 - Ours polaire en peluche

C'est un objet apportant du réconfort. De plus, il a l'air de bien s'acclimater ici.

14 – Bouteille d'eau

Elle est inutile car avec le froid polaire, l'eau va geler et la bouteille va se casser.

Les cartes – LyanTV

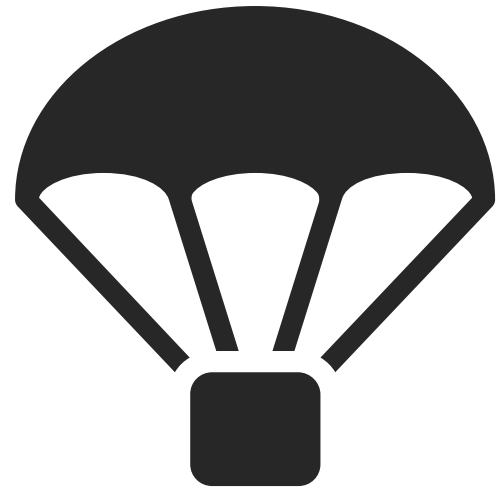

Retrouvez page suivante les cartes que nous vous proposons pour cette expédition.

Page 2, vous avez la face des cartes et page 3 le dos.

Une impression "recto-verso" et vous n'avez plus qu'à découper vos cartes.

Expédition au Pôle Nord

Expédition au Pôle Nord

An illustration of an Arctic landscape. In the foreground, there is a small igloo made of ice blocks with a dark arched entrance. To the right, there is a body of dark blue water with several icebergs of various shapes. In the background, there are large, jagged ice formations and mountains under a light blue sky. The overall style is clean and modern with a limited color palette of blues and whites.

Expédition au Pôle Nord

The background of the slide is a stylized illustration of an Arctic scene. On the left, there is a small igloo made of ice blocks with a dark arched entrance. To the right of the igloo, there are several large, jagged icebergs floating in the water. In the far background, there are snow-capped mountains under a pale blue sky. The overall color palette is dominated by various shades of blue and white, giving it a cold, wintry feel.
